## CHAMBERLAIN, RITCHIE AND HAMILTON LEAVE CABINET

### LIPTON IS GLAD

Will Escape Knife and Grateful for Sympathy of American People.

CHICAGO, SEPT. 17.—SIR THOMAS LIPTON, WHO IS ILL OF CATARRHAL APPENDICITIS IN HIS APARTMENTS IN THE AUDITORIUM ANNEX, PASSED A QUIET NIGHT AND IS DOING WELL, ACCORDING TO A STATEMENT MADE BY DR. THOMAS THIS MORNING.

TO ALEXANDER H. REVELL, SIR THOMAS' HOST, WHO WAS AN EARLY CALLER, THE PATIENT SAID: "I'VE BEEN AN AWFULLY SICK MAN, BUT I'M EASIER NOW."

MR. REVELL SAID HE CONSIDERED THE PATIENT'S CONDITION VERY ENCOURAGING. DR. THOMAS SPENT A NIGHT IN A ROOM OF THE LIPTON SUITE, BUT ASIDE FROM ORDINARY SICK-ROOM DUTIES, THERE WAS NO URGENT NEED FOR HIS SERVICES.

#### MESSAGES OF SYMPATHY.

A NUMBER OF MESSAGES OF SYMPATHY FROM NEW YORK FRIENDS WERE RECEIVED DURING THE NIGHT AND READ WITH PLEASURE BY THE RECIPIENT WHEN HE AWOKES THIS MORNING.

AT 8:30 A. M., THE PATIENT HAD FALLEN ASLEEP AGAIN. MR. REVELL SAID THAT PROBABLY THERE WOULD BE NO FURTHER FORMAL CONSULTATIONS OF THE PHYSICIANS, UNLESS THE UNEXPECTED IN THE FORM OF A CHANGE FOR THE WORSE OCCURRED. IT IS STILL BELIEVED THAT AN OPERATION WILL BE UNNECESSARY AS NO PUS HAS FORMED.

### LOST IN LOVE AND TOOK LIFE.

Sad Closing of Career of Lincoln Man of Society.

### FELL IN HEAP OF RUBBISH.

Building Collapses and Buries Five Human Beings.

LINCOLN, Neb., Sept. 17.—Hugh Edmiston, a young society man of Lincoln, was found dead in his office early this morning. He had turned on three gas jets and the flames ended his life. He left two notes which indicated that he was a victim of despondency.

Edmiston was 23 years old and well known in Omaha, where he has a brother in the insurance business, and in Kansas City. He was a member of the insurance firm of J. M. Edmiston & Son. His family believes there was a love affair and he was disappointed.

NEW YORK, Sept. 17.—A five-story brick building under course of construction at the corner of Madison and Rutgers streets collapsed today, injuring a number of workmen.

Five men have been removed from the ruins and taken to hospitals, one being seriously injured.

Foreman Baker is missing and is believed to be in the ruins.

### THREE AND TWENTY LOST ON STEAMER MEXICANO.

Vessel Goes Down in Tempestuous Gale and Only One Man Left to Tell Tale.

ATLANTA, Ga., Sept. 17.—A Journal special from Portsmouth, Va., says: A ship, believed to be the Mexicano, has been wrecked near this port. Twenty-three of the crew are reported to be drowned.

Only one was saved.

NORFOLK, Sept. 17.—The Spaniard, through an interpreter, told of the Mexicano's sinking. The steamer was bound from Tampico for Vera Cruz with a cargo of petroleum in bulk when the full force of the hurricane broke upon her.

The mountainous seas broke constantly over the ship and finally one high wave crashed through her decks. The fire-rooms were flooded and the Mexicano became helpless.

IN THE TROUGH.

For a few moments she wallowed in the trough of the sea and then plunged to the bottom.

The rescued man says hundreds of

gallons of oil were poured over the ship's side in a vain attempt to calm the sea and if possible save the ship. When the Mexicano went down the crew went with her.

GOATS STOVE IN.

All boats had long since been crushed by the force of the waves and the men were powerless to save themselves.

Dario Reybarry went under the vessel and by the merest chance became entangled in some loose rigging and spared. The buoyancy of these brought him to the surface and he made himself fast to the largest spar.

DARING RESCUE.

For seven hours he floated in a turbulent sea until finally the Rocky dove in sight. His rescue was a daring one. The captain was R. S. King and the King Line, Limited, of Middleborough, England, owned the lost vessel.

Reybarry is unable to give accurate figures of the twenty-one men lost.

### FIFTEEN LOST IN THE DEEP.

DAMARISCOTTA, Maine, Sept. 17.—The schooner Sadie and Lilla of Prospect, Maine, the mackerel seiner George J. Edwards, of Gloucester, were wrecked on Pemaquid Point during the night and fifteen lives were lost.

### LEADER OF TURKISH REVOLT AS HE APPEARS IN HIS HOME

BORIS SARAOFF.

This portrait of Boris Sarafoff, the chief of the Macedonian revolutionists, was taken in the garden of his home at Sofia, Bulgaria. His family has been in revolt against the Sultan for 200 years, and he has taken an active part in conspiracies against Turkey since he was a boy.

### SCENES OF BLOOD IN TURKEY.

Human Life Valued As Nothing By Brutal Adversaries.

Religious Prejudice Leads to Wanton Slaughter in Russia.

BEIRUT, Sept. 17.—Business is still suspended, notwithstanding the change in the governorship and it will take a long time to restore confidence.

Robberies and murders are the order of the night, if not the day, and the feeling of insecurity on the part of both European and native residents is very great.

Some form of outrage against the foreign and Christian population occurs daily. The Christian refugees in the Lebanon mountains are returning very slowly and in small numbers.

### LIVES SACRIFICED TO RELIGIOUS HATE.

ST. PETERSBURG, Sept. 17.—Fierce fights between Jews and Christians, in which four Christians and two Jews were killed and many persons were seriously injured, are reported from Gomel, in the government of Moghilev.

The disturbances occurred on September 11, from a dispute between a peasant and a Jewish dealer.

The police intervened and, according to the version published here, the Jews threw stones and fired on the police, several of whom were injured.

The disturbances were renewed three

### MAKING HOMES FOR MILLIONS.

Irrigated Acres Mean Colonization and Prosperity.

Papers Read at the Great Anti-Desert Congress in Ogden.

OGDEN, Sept. 17.—Practical illustrations of what irrigation will do for Western land and the best methods of supplying the needed moisture to the arid stretches of the West as well as the theoretical science of irrigation, were set before the delegates to the National Irrigation Congress at today's sessions.

This morning's session was almost entirely devoted to the reading of papers by government experts in irrigation and forestry, headed by Secretary of Agriculture James Wilson, who gave a very comprehensive description of the great work the Department of Agriculture is doing in the matter of irrigation.

No session of the congress was scheduled for this afternoon, almost the entire body of delegates, instead, taking carriages for the model farm of forty acres conducted by the State at the Deaf, Dumb and Blind Institute. This entire tract has been devoted to experiments in various methods in irrigation, and the delegates tramped all over the ground the entire afternoon, examining with much interest the work done by the State.

There is growing interest in the fight

### TRIBUTE TO VALOR ON ANTIETAM.

President Dedicates the New Jersey Shaft to Soldier Sons.

Praise for Boys in Blue — Comradeship for Those in Gray.

SHARPSBURG, Md., Sept. 17.—Under lowering skies, the magnificent monument erected on the historic battlefield of Antietam by the State of New Jersey, to its men who fell in the great engagement, was dedicated today. The occasion was rendered particularly notable by the presence at and participation in the ceremonies of the President of the United States and of Governor Murphy, the chief executive of the State which was honoring her heroes.

The special train bearing the President, Governor Murphy and their parties, arrived here at 9:10 o'clock. Governor Murphy was accompanied by Senators Kean and Dryden, by several prominent State officials and by the entire military staff.

SURVIVORS OF THE FIELD.

Special trains bearing nearly a thousand New Jersey survivors of the Civil War arrived just after the arrival of the Presidential train. The trip of the President from Jersey City was devoid of special incident. Many

# SUNDERED TIES BETWEEN PASTOR AND PEOPLE.

**First Unitarian Church Accepts Resignation of Its Leader**

**Rev. B. Fay Mills.**

The congregation of the First Unitarian Church assembled last night to take action upon the resignation of the pastor, Rev. Benjamin Fay Mills. Although there was a goodly number present the gathering was not as large as had been expected. There appeared to be a general feeling of regret that it had become necessary for the congregation to defer to the expressed wish of its pastor to retire from the leadership of the church which was later feelingly voiced by some of the members of the flock.

The meeting was called to order by the vice-president of the society, A. H. Elliott, who announced that the president, Colonel John P. Irish, was at the time in Ogden, and therefore, unable to be present.

The by-laws of the society authorizing the calling of such a meeting, and the call itself were read.

The smallness of the attendance raised a doubt in the mind of the presiding officer as to the presence of a quorum for the transaction of business, and measures were at once adopted to ascertain if the requisite number of members were on hand.

The chair was finally satisfied that business could be legally transacted.

**THE RESIGNATION.**  
Secretary F. M. Tillson then read the letter of resignation of the pastor, which was received with a silence which was almost painful.

The silence was not broken until the chair announced, after the lapse of several moments, that the church was a thoroughly democratic organization, and while it was competent for the trustees to dispose of this matter, it was believed by them that a subject of so great importance should be referred directly to the congregation for final action. The resignation was then read, and it should go into effect and the pastor be relieved from duty on and after the 15th of October.

**JOHN P. IRISH.**  
A letter was read from President Irish, stating in brief that the resignation was tendered in good faith and was irrevocable and urging the congregation to comply with the pastor's request and accept it regardless of how much it might be the loser by so doing.

George E. Grant thereupon moved, without comment but in a feeling tone, that the resignation be accepted. The motion was seconded by A. Kluegel.

**WANTED POSTPONEMENT.**  
C. H. Redington said that, although there was a quorum present, he did not believe it was advisable for so small a number to act upon this matter.

He thought it desirable that there should be a more general attendance, and moved that consideration of the resignation be postponed for two weeks.

A. A. Denison said that Mr. Mills

drifted toward the Larchmont Yacht Club-house. Many yachts of wealthy New Yorkers have been anchored in this harbor since the races and it was feared that the large yacht would drift among the shore boats and cause damage.

**HURRICANE CAUSES GREAT LOSS OF PROPERTY AND LIFE.**

**NEW YORK, Sept. 17.**—Theodore Grimes, whose skull was fractured by a section of roof blown by the wind from the stables at Aqueduct race track last night, died at a hospital.

While a freight train on the Long Island Railroad was passing between Mineola and Hyde Park the roof of a box car was carried away by the gale, with Walter Lewis and George B. Snyder, two brakemen, clinging to it. The roof was carried almost 100 feet from the track, where it collapsed by striking a tree. Both men were fatally injured.

In Jamaica Bay, Long Island, scores of yachts were wrecked. Most of them were torn from their anchorages and pounded to pieces on shore, but a good many were caught while sailing in the bay and those aboard had narrow escapes. The entire fleet of the Jamaica Bay Yacht Club, comprising more than thirty boats valued at sums up to \$1,500, was destroyed.

The beaches at New Rochelle, on Long Island Sound and City Island are strewn with wreckage from yachts and it is estimated that not less than \$500,000 damage was done these vessels alone.

The cup defender Reliance is reported to have been blown away and through being rammed by a pile-driver, which broke loose from its moorings and drifted on the Reliance's stern. The raver was beached for winter quarters and had been drawn partially up on ways. Several plates were loosened, but the damage was not serious. A tug caught the pile-driver and towed it away to prevent the old defender Columbia from being rammed by the schooner yacht Hildegarde, which was dragging her anchor, the Hildegarde was killed when within a few feet of Columbia. Her crew of seven men jumped overboard and were saved. A large loaded with 500 pounds of dynamite broke from its moorings and

drifted toward the Larchmont Yacht Club-house. Many yachts of wealthy New Yorkers have been anchored in this harbor since the races and it was feared that the large yacht would drift among the shore boats and cause damage.

Rough estimates of the financial loss due to the storm are \$2,000,000 on and around Manhattan Island alone. So far, fifteen lives are known to have been lost in the storm and it is believed this number will be doubled when all reports come in.

One of the most thrilling stories of the disaster is that of the excursion and night steamer S. E. Spring, which was driven ashore near the country mansion of E. C. Benedict at Great Neck, Conn. Captain McDonald, his crew of seven men and eleven passengers were rescued through the aid of the Benedict family.

The Spring was trying to put back to Stamford, and the gale had reached a locality of eighty miles an hour when the rudder failed and the steamer was driven at the mercy of the huge seas which swept over her.

The panic-stricken passengers fled to the upper deck where they sought refuge in the cabins and the women became hysterical. The pilot was still trying to turn around when a sudden gust of wind off the entire roof of the upper deck, leaving only the pilot house.

When the roof went off the boat was lifted by the wind and the mainmast was so great that it tore off the rudder, and when she settled down again in the rough of the sea she was perfectly helpless.

Realizing that they were at the mercy of the storm the sailors as a last resort, determined to get to the bottom of the boat to hold the steamer's head to the wind. No sooner had they done so than the chain snapped. The steamer was driven at the mercy of the waves and the most dangerous situation in the Connecticut shore. The passengers were ordered to put on life-preservers and be ready to jump overboard.

A scene of wild confusion followed. The crew launched the largest life raft and the passengers, with life-preservers, were ordered to jump overboard. A few of the passengers were in small boats, but as the wind was so great that it tore off the rudder, and when she settled down again in the rough of the sea she was perfectly helpless.

The steamer drifted along the shore an hour until she hit the rocks. To point at Benedict's and stove in her bow. As soon as she touched a colored cork dropped fifteen feet to the rocks. The vessel was driven over the rocks and was tossed until she was badly bruised, but she kept on swimming and was finally tossed on the beach. The passengers were rescued from the ship and a few minutes all hands had been safely landed.

**BECOMING A MOTHER** Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother, of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other distressing discomforts of this period.

# STATE INSTITUTIONS. The One at Oakland Meeting With Deserved Success.

**THE PEOPLE FULLY APPRECIATE MERIT WHEN THEY SEE IT.**

We are very proud of the patronage given to the State Medical Institute Sanitarium now permanently located at 1160 1/2 Broadway, Oakland, California, as evidenced by the number of good people who have visited us for medical treatment, and we can assure one and all who patronize us that we will leave nothing undone that science and kind care can do to thoroughly treat and cure every case that trusts its case to our treatment, and, as the manager and founder of the State Medical Institute, we feel that after spending twenty-five years in a very large practice as a specialist, a part of which time has been spent in the large hospitals of Europe and America, that we can with great confidence invite you to come to this sanitarium and be cured.

We especially call the attention of the public to one very important department of this sanitarium, set apart especially for the treatment of skin diseases, skin diseases, scrofula, tumors, face blemishes, specific diseases, blood poison and a great number of troubles and afflictions arising from these diseased conditions. With our great experience and success in treating these cases belonging to this order, we have no hesitation in saying that we can cure ninety-five per cent of all such cases and permanently eradicate and remove all their effects from the system.

Another department we would like to call your attention to is our successful treatment of children who suffer from enlarged tonsils, catarrh, enlarged glands and troubles of the throat and breathing apparatus in fact, in this department we make a specialty of all diseases of children.

Dr. Neagle and associates treat and cure all Chronic Diseases of the Eye, Ear, Throat and Lungs, Liver, Heart, Kidney, Bladder, Brain, Catarrh, Asthma, Rheumatism, Bronchitis, Headache, Deafness, Chills and Malaria, Skin Diseases, Neuritis, Diabetes, Dyspepsia, Dropsy, Hemorrhoids, and Rectal Troubles and all forms of Sores, Blood and Wasting Diseases.

All private and wasting diseases promptly cured and their effects permanently eradicated from the system. Diseases of women and children given special attention.

Nervous diseases and nervous prostration made a specialty.

**SAY WILSON HAS MISMANAGED**

**BUCKLEW HEIRS WOULD HAVE HIS REMOVAL AS TRUSTEE.**

Action has been begun in San Rafael by the heirs of Mrs. Martha Bucklew looking to the removal of William Wilson of the city as trustee of the estate.

The petition filed by Attorney Joseph K. Hawkins, representing the heirs, alleges that Wilson has mismanaged the affairs of the estate; that he has violated the duties of trustee, and unfit to have further charge of the property. The Bucklew estate was originally appraised at nearly \$30,000 and consists chiefly of valuable real estate in San Quentin and San Rafael.

Wilson is a prominent jeweler of this city with his place of business at 1011 Broadway and in regard to the charges made against him has this to say:

"I have managed the estate to the best of my ability and no one can say that there is anything wrong with the affairs. However, I am willing to be removed, as there is too much strife between the heirs to contend with. The former executor, Reuben Lloyd, gave up his trust for much the same reason. To my mind the money in the bank is the bone of contention. Thomas Wilson, son-in-law to Mrs. Martha Allison, and her daughter, Mary Wilson, are the principal ones who have been quarreling with me. They want to get their hands on this money. Every cent of the money is in the bank. If there is any mismanagement it is on the other side in their lack of appreciation of business methods."

**ATTORNEY LUTTRELL RETURNS FROM EAST.**

Hiram A. Luttrell, the well known attorney, has returned home from an extended Eastern trip which lasted about a month. Judge Luttrell went to Providence, R. I., as one of the three delegates from California to the National convention of the Independent Order of Foresters of America. After finishing his business in the convention he visited all the principal Eastern cities and came back via Los Angeles, where he stopped over several days.

## GOOD RACES FOR HEAVYWEIGHTS TO MEET NEXT WEEK

CRACK RUNNERS NOW AT EMERYVILLE TRACK FOR WINTER RACING.

The eight days' racing under the auspices of the Golden Gate Association will commence on Saturday afternoon and continue until the following Saturday. There will be one harness race and five running events on the program for each day and they will bring out some of the best horses now on the coast.

For some time past every train has brought in some of the fast ones from all parts of the country in anticipation of the winter meet of the California Jockey Club, which commences on November 14. Many of these will be seen in the races of the Golden Gate Association.

During the summer months the track has been worked over and is now better and faster than ever. The entire top was taken off and new earth put on. In its present condition it is easier on the horses' hoofs by being more springy, but at the same time the speed has not been affected.

Among the prominent stables now at the track are: Packer Ryan with Bones, Houston, Ben McDull and several others; Butch Fisher with General Roberts, Dr. Bernays, Jockey Club, Plan and Evander; Caesar Young has Bones, Watercure, Tower of Candies, Little Margaret, Grail, etc.; Bill Murty has Padua, Imp, Someros, Puss in Boots, Main Bell, Fort Wayne, Queen and others; Milton Jones, in charge of Trainer Hiram Pierce, includes the fast New York sprinter, John A. Scott, the St. Louis Derby winner, Prince McCune and Rocklick. Don Cameron has his road horse Hagerdon in good shape, also the useful 2-year-old, H. L. Frank.

## FRESHMEN PLAY GOOD BALL

STANFORD'S FIRST CLASS MEN HAVE FIRST GAME OF SEASON.

A game of football was scheduled for yesterday afternoon between the Freshmen of Stanford University and the Palo Alto High School but it was postponed and a practice game of twenty minutes' duration between two Freshmen teams was substituted. They played good, snappy ball and so events were watched that neither side had scored when the play ceased.

As was to be expected so early in the season, the game was ragged in spots but it was encouraging to the coaches to notice how well the players followed the instructions given them and led the coaches to believe that Stanford will have a crack Freshman team to go against Berkeley. The team will be strong on the ends and backs, while the line will be an average one.

Following is the line-up of the teams as they faced each other at the opening of the game:

## MEET

GUS RUHLIN AND JOE MILLETT SIGNED FOR OCTOBER SHOW.

Alex Gregains, in behalf of the San Francisco Athletic Club, has signed Joe Millett and Gus Ruhlman for the main event of the San Francisco Club's show in October. He did this only after assuring himself that the match would meet with favor with the fight fans of San Francisco. Ruhlman does not stand high in the estimation of the fans about this bay because of his showing against Jeffries a few years ago. Ruhlman is a good fighter, however, and a match between him and Millett should be a good one, although the latter is fully twenty pounds lighter than the Akron giant.

Millett is managed by J. C. Cohen of Honolulu and the latter has a big bunch of money to bet that his man can dispose of any of the big fellows, barring Jeffries. Millett made his first professional appearance in the Hawaiian Islands and he disposed of the best fighters in Honolulu in short order. He was the champion heavy-weight of the coast in the amateur ranks before he went to the islands and at that time there was a number of good amateurs.

Elly Maiken, who looks out for Ruhlman's interests, still claims that his man is of championship timber and attributes his easy defeat by Jeffries to a chance blow early in the fight which made it almost impossible for him to continue the fight. Since then Ruhlman has knocked Sharkey out in short order, but the latter has never been the same fighter. It was since he took the awful beating from Jeffries.

## "IRON MAN."

One of the crack pitchers of the National League is "Joe" McInnis of the New York team. His leading feat this year was the pitching of two double-headers and the winning of all four games.

ST. PATRICK'S FAIR IS POSTPONED.

The fair which was to have opened in the Auditorium, West Oakland, on Saturday night, September 19th, for the benefit of St. Patrick's Church, has been postponed until October, when it will be open in the same place and continue for about two weeks.

After twelve innings of fast, snappy ball Los Angeles won out from Oakland yesterday afternoon by a 6 to 0 score. The game was exciting from start to finish and the league leaders had all they could do to win out. The fans in Los Angeles have been greatly surprised by the improved playing of the Recruits and are by no means as sanguine of the home team winning the series. Los Angeles started out bravely and scored twice in the first inning and once in the second and third innings, while Oakland circled the bases twice in the third, making the score 4 to 2 until the seventh inning when Hall weakened and allowed Oakland to score three more and take the lead. No more scoring was done until the last half of the ninth when Newton was hit in to bat for Hall. The doctor walked after Ross had reached first, advancing the latter to second. He hit a hard one through Devereaux and Moskman who received the throw-in, threw wildly to the plate to head Ross, but the latter scored, making it 5 to 2. Having entered the game Newton pitched the balance of the game and allowed the Recruits but two hits in the remaining three innings. In the twelfth Spies hit for two bases and scored on Corbett's single.

Uncle Henry Harris tried a costly experiment yesterday afternoon when he put O'Brien in to pitch against the Sacramento team. The youngster has the earmarks of a good pitcher but lacks the experience and this caused the team behind him to lose confidence. The Senator scored four times in the first inning on one hit. They were blanked for the next two innings, but scored four more times after that and it was plain sailing for them after that. He hit a hard one in every inning but the fifth when he allowed the Stars to make three hits and then shut them out without a hit or run. He was given gilt-edged support, which cannot be said of the support given O'Brien. The final score was 13 to 2.

Hughes did the pitching for Seattle yesterday in the game against Portland, and it was plain sailing for the players from the State of Washington. As usual, Hughes' salary arm was working just about right and he pitched rings around the Browns. Shields also pitched good ball, but Seattle punched hits and scored runs in the second and fifth innings which won them the game. The Browns managed to score once in the first and twice in the third, but it was curtains after that.

Joe Corbett took care of the left garden for Morley in yesterday's game, and besides taking care of everything that came his way he was the star batter of the day, bumping the ball for four singles out of six times up.

Phil Knell, the veteran baseball pitcher, is offloading for Sacramento this afternoon, and if he makes good he will probably be seen on the hill on Sunday. When the pitcher's box was fifty feet from the home plate Knell was rated as one of the best pitchers in the business and the major league teams fought for his services, but since the distance has been lengthened he has lost his cunning and seems unable to curve the ball at so great a distance. He has been playing all summer with semi-professional leagues and has done such excellent work that Fisher has decided to try him. Knell is an expert at fielding the position.

That San Francisco was not shut out is due to Tally Raymond, Harris' new short-stop, who came from the amateur ranks. After Delmas had hit for two bases Raymond knocked the ball over the fence for a home run, thus scoring the only two runs made by the Stars.

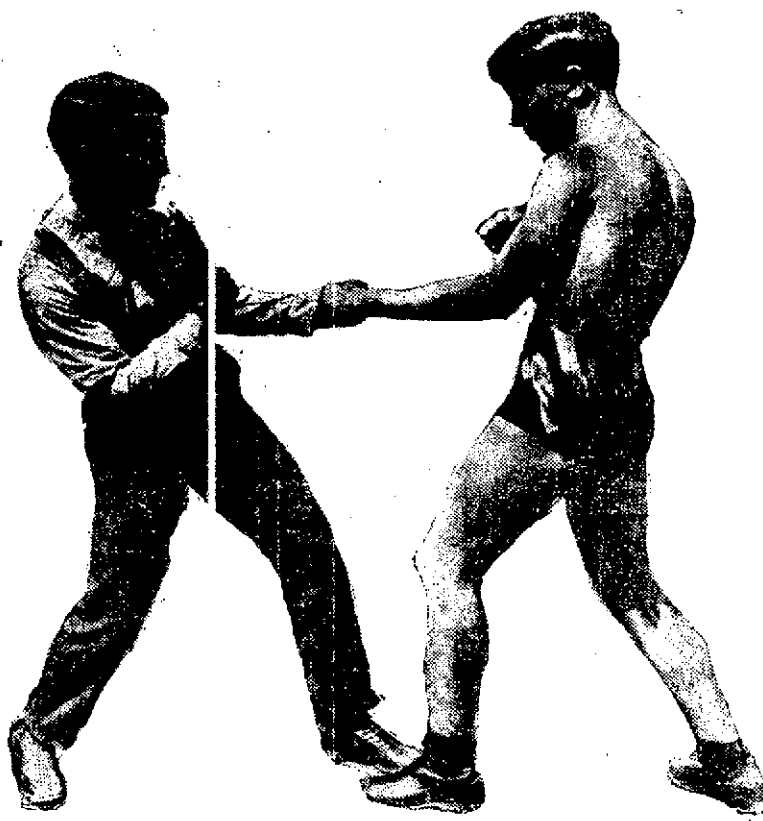

## OAKLAND ADDED TO CIRCUIT

PREPARATIONS FOR THE ANNUAL BOWLING TOURNAMENT ARE MADE.

At the annual meeting of the San Francisco Bowling Association held in San Francisco last night, it was decided to conduct the team tournament along the lines of that of last year and Oakland has been added to the circuit. There was a considerable discussion as to the advisability of adopting a handicap system but it was finally decided that it would be impracticable and the idea was abandoned. It was decided to declare the winners of the first class the champions of the bay counties, the winners to be determined by the total pinning.

A preliminary interclub series of four matches for each team will be played to determine upon classification, the number of classes to be left to the discretion of the tournament committee. Individual scores in this preliminary series will count in the distribution of individual prizes. The matter of excluding the alley managers and employees was found to be contrary to the rules laid down by the American Bowling Congress, which provides that all such men may bowl in team tournaments but are not eligible to receive individual prizes. Money for suitable

prizes will be distributed equally in the several classes selected and all clubs must make entry by October 1st, the preliminary to start not later than the 12th of the same month.

The election of officers brought out a spirited contest for president between the incumbent, Colonel Crawford, and A. W. Martin. The latter was elected by regular ballot and the choice was made unanimous. For the remaining offices there was no contest, the following being elected: William Thor-mahlen, vice president; W. T. McDowell, treasurer; Charles B. Sexton, secretary. The tournament committee was increased from five to seven members, and the choice of men fell to San Adler, Charles Pickle, Henry Bush,

Dan Lowney, George Minnott, J. Loughery and J. V. Russell.

## PETITION FOR DEATH PENALTY.

ALBANY, N. Y., September 17.—Unique in the criminal history of this State was the hearing just held before Governor Odell on the application for commutation of the death sentence in the case of the three brothers Vandevanter awaiting execution for murdering their uncle, Peter Hallenbeck, two years ago. The men are all under thirty years of age.

Five jurors, representing eleven of the men who convicted the Vandevanters appeared in opposition to the appeal and a minister argued for the in-

## BETTING STARTS GRIFIN WANTS EARLY MATCH

GREAT INTEREST SHOWN IN COMING CORDELL-ANGELI FIGHT.

The interest of the fight followers on both sides of the bay is more than ever centered in the coming contest between Jack Cordell and Joe Angeli before the Reliance Athletic Club on September 22 and present indications point to a larger crowd being present than ever witnessed a boxing contest in Oakland. The interest is by no means confined to this side of the bay but in San Francisco it is so great that many private bets have already been made at even money.

Angeli and Cordell, as amateurs were far and away ahead of anyone in their weight and much is expected of them as professionals. It looks as if the admirers of the two boys are not going to be disappointed for the very best reports come from the respective training camps regarding their conditions and abilities. Both are having the benefit of the very best training and it is the unanimous verdict of the leading experts on both sides of the bay that the contest will be one of the best seen on the coast in many a day.

So far the betting has all been private wagers between friends and has been at even money but it is thought that Cordell will be a slight favorite when the real betting begins, although there is nothing to cause such a turn. Many of the enthusiasts have tried to figure out the respective merits of the two fighters on past records but they have had poor success for there is really nothing on which to make their deductions. The fighters have met three times in four-round amateur bouts. Cordell has two decisions and Angeli one, but the latter's was the last one. Four rounds is just long enough for the boxers to get warmed up and not long enough to get a line on their abilities.

Cordell is a pretty boxer. He stands straight and favors fighting at long range. His blows are all clean and decisive and he varies very little energy in little punches at the air. He is a good blocker and extremely quick on his feet. On the other hand Angeli can take a world of punishment without being teased and in fighting he uses a punch similar to the one used by Eddie Hanlon. His style is almost identical with Hanlon and he is continually boring in.

 filiation of the death penalty. A petition signed by 263 residents of Columbia County urged that the Governor show no clemency. The petition was taken under consideration.

## GRIFIN WANTS MATCH

NEGRO IS LOOKING FOR A MEETING WITH SULLIVAN ON THIS SIDE.

After playing hide and seek with Morris Levy until the latter was tired and gave up the prospect of matching Griffin and Johnson, Griffin has come over to Oakland and is looking for a match. Yesterday he approached the matchmaker of the Reliance Club, George Mahony, in regard to the chances for being matched with George Sullivan, the Philadelphia middle weight, who recently joined the club and is conditioning himself under Eddie Smith's supervision.

Griffin is very anxious to have a go with Sullivan but Mr. Mahony did not give him much encouragement. The club will not handle such a match other than as a preliminary and Griffin would feel very much insulted to be asked to come down to that.

Sullivan is out of condition and it will be several months before he can be gotten into good fighting trim, so it is hardly likely that he would consider a match with Griffin until he was in shape for it. Sullivan is training faithfully under Smith and the prospects for his becoming the middle-weight champion of the coast are very good. He has not had much experience in the fighting game but is learning fast.

## STEVENS EFFORT AT MACDONOUGH.

"East Lynne" in a new dress is still holding the boards at the Macdonough Theatre to crowded houses nightly. Landers Stevens and his very capable company seem to make of this great emotional drama an entirely new play still holding the great interest of the old one. The company shows to far greater advantage in this week's bill than in any other they have produced here. This will be the last week of Stevens and his company. The last matinee will be given on Saturday next and the closing performance Sunday will mark one of the most successful mid-season stock engagements ever had at the Macdonough.

On Monday the regular fall and winter season opens with Henry Miller and Margaret Anglin.

## NO BUYERS FOR BONDS.

Some time ago Stockton voted to issue bonds to install an electric light plant, but the bonds have found no takers thus far. For some reason or other the capitalists who ordinarily stand ready to snap up municipal securities view these bonds askance and refuse to bid for them. The Mail says:

"The course of municipal ownership in Stockton seems to be about as full of boulders as that of true love. When the people last spring made up their minds to 'show the gas company a few things and voted to issue bonds to build such a lighting plant as no corporation would think of building under the conditions that prevail here, it was supposed that all that remained was for the authorities of the city to press a financial button and the lights would soon thereafter begin to twinkle.

"Accordingly the bonds were advertised for sale, but when the time arrived for opening bids for them no bids were presented. A suit has been commenced to restrain the authorities from selling the bonds, but a higher authority—the law of supply and demand—seems to have blocked proceedings as effectually as the courts can do."

It is possible that there may be some legal defect in the issuance of the bonds, or other threatened complications which the buyers of securities desire to avoid, but if so, no statement to that effect appears. Stockton's financial standing is good and her credit as a municipality is first class, while her liabilities are comparatively small. This makes it all the more remarkable that no bidders should appear for a comparatively small issue of bonds aggregating only \$160,000. The Mail accounts for the reluctance of bond buyers to take up the securities in this wise:

"Among the reasons why capitalists are unwilling to invest in the bonds is doubtless the fact that careful business men have grave doubts of the success of the proposed plant. If it should ever be constructed, of course, even if the plant should prove a failure, the city would be held as security for the bonds, but there would undoubtedly be a general disposition to get out of paying them if possible."

If this be the true reason, bond buyers are showing a timidity not hitherto suspected. If the bonds were voted in strict conformity with the law it hardly seems possible to evade payment. It would be unwise for Stockton to attempt to repudiate a liability entered upon by a two-thirds vote of the citizens. However, the incident is instructive as an indication of the temper of capitalists regarding municipal securities of a certain class.

## THE WALKIREZ VERDICT.

A jury of one man and eleven others decided that Walkirez shall be boarded and lodged by the State for life instead of being hanged for the murder of Mrs. Leroy. This will enable Walkirez to draw a pension from the Government with which to reimburse his lawyers for defending him and to fee other lawyers to make efforts to secure his release. The defense set up for Walkirez deserves explanation. It consists of three propositions:

1. That his mistress was a white woman and prompted him to the deed.

2. That the plunder gained by the murder was too small to warrant the imposition of the death penalty.

3. That Walkirez was insane.

The proofs of his insanity were that he is vicious, depraved and worthless, and that he treacherously murdered a kind-hearted, helpless old woman who had given him, a stranger, food and shelter. The blackness of the crime is thus made to serve as an excuse for the criminal.

The juror who tried the case should be proud of his record; the eleven others who acquiesced in his verdict appear to have had little part in the proceedings. He has given the State a free boarder and the government a pensioner for many years to come.

## A CARTOONING CAMPAIGN.

The cartoon as a political weapon is steadily growing in favor. As popular intelligence increases the ideas conveyed pictorially are more readily perceived and assimilated. Besides the public taste runs strongly to illustration, to pictures of all kinds. So the cartoon has an interest of three kinds. It is humorous and suggestive, and at the same time gratifies the taste, for form and color.

In Kentucky a tax amendment to the State constitution is soon to be submitted to the voters, and a committee has been appointed to conduct a campaign in its behalf. The committee proposes to enter upon a campaign of education with cartoons, which are to be mailed to every voter in the State. The cartoons are to be supplementary to printed arguments, which they will illustrate and emphasize. Each illustrates the disadvantages under which the State la-

bors through the present statutes covering local taxation. One shows the State as a little boy standing among larger boys, his stunted growth being due to the tax system. Another shows the State inviting capital to take a seat which contains numerous sharp tacks.

Heretofore political cartooning has been mainly of a personal or partisan character in which caricature largely figured, but the Kentucky idea is something of a departure. It will omit the broad humor and personal satires that constitute the most salient features of the ordinary cartoon. Being intended to enforce a solid, economic argument, it will be devoid of any appeal to partisan or personal prejudices. Whether such cartoons will be effective will depend largely upon the artistic merit and the manner in which the subjects are handled. Too many political cartoons are mere vulgar travesties of personal peculiarities. Others as grotesquely caricature the principles and projects they deride as they do the personages held up to ridicule. Nevertheless they have a force, because they carry an impression that strikes into the dulled understanding. If cartooning can be made to serve a higher and nobler purpose than merely ridiculing men and measures, it will add to intellectual development and a broader appreciation of the capabilities of popular art.

## BRITAIN'S FINANCIAL STRENGTH.

Premier Balfour says he does not believe that the wealth of Great Britain is diminishing or that the capital of the nation is being impaired, but he submits figures showing that the United Kingdom is not making the same industrial and commercial progress that distinguishes the United States and Germany. His statistics are intended to fortify his scheme of tariff retaliation, and in that respect have a partisan complexion.

Whatever the statistics presented by Mr. Balfour tend to prove, there are statistics which clearly establish the fact that Great Britain is not declining in wealth. In America, we have drawn many loose generalizations from imperfect and partial data, and these generalizations have led to conclusions wide of the truth. In 1868 the total taxable income of the British Isles was \$1,723,410,000. By 1894 this had risen to \$2,378,159,000. In 1901 the gross taxable income had grown to \$3,087,775,000, an increase in seven years of \$609,365,000. During a considerable portion of this period the country was at war. In twenty-three years the gross taxable income of the United Kingdom had increased \$1,312,145, or nearly doubled itself. This does not indicate decay.

In twenty years British income from foreign investments grew from \$359,750,000 to \$312,336,000, practically double. In ten years railway earnings have increased \$12,225,000, mines by \$27,375,000 and iron works by \$22,500,000.

The total volume of British foreign trade amounted to \$1,836,000,000 in 1861; in 1902 it was \$4,385,000,000, nearly treble. In the same period the postoffice savings deposits increased from \$207,555,000 to \$985,526,000. British shipping has doubled its tonnage in forty years, and British insurance companies command the bulk of the marine underwriting business, and lead those of all other countries in extent of operations in foreign countries.

While the balance of trade is steadily against the United Kingdom, a large proportion of the products landed at British ports are shipped there from British colonies or by British merchants in foreign ports. The products come in British ships manned by British sailors and insured by British underwriters. The export and import values are made up in British ports, the point of discharge of the latter and shipment of the former. Comparisons are deceptive, for the imports have tacked on the profit of the British shipper, the British shipowner and the British underwriter, while the exports are still minus these profit and freight charges that are yet to be assessed against the foreign consumer.

Although near and approaching her zenith Britain is still financially and commercially prosperous.

The newspaper correspondents who are expressing fears that Canada is getting the best of the arbitration are evidently impressed by the size of Lord Alverstone's wig.

Senator Allee of Delaware, who seems content to pose in the Senate as the deputy of J. Edward Addicks, has done a very creditable thing in having the postmistress of a fourth-class office removed on the ground that she was personally distasteful to him. The personal distaste appears to be due to the fact that her friends and relatives belong to the wing of the Republican party opposed to "Gus" Addicks. It is a pity that the Third Assistant Postmaster-General acted without investigating the case, for, in addition to the injustice inflicted, the removal was a piece of poor politics. It is being exploited in all the States where elections are to be held this fall which puts the blame for a petty piece of business up to the friends of the President. The removal of a

woman under such circumstances is hard to apologize for, and it emphasizes the character of Addicks and the methods he pursues to gain political control of Delaware. The Todd case thus makes Addicks an issue in other States—a small, nasty, irritating issue.

## CONSERVATIVE OPINION SPEAKS.

The sober, second thought of Alameda on the franchise question was expressed at the meeting in the City Hall last night. In point of numbers, respectability and property interests represented the gathering was impressive. The temper of the meeting was admirable. Conservative sentiment is as void of heated expression as it is slow and cautious of forming, and does not indulge in personal detraction or furious declamation. Yet it is strong and fixed despite its reserve and comparative quiescence. When it has come to a show of hands and of property interests involved, the strength of the conservative element in Alameda is disclosed.

It has been assumed that the violent harangues and intemperate resolutions of other meetings were the voice of the people of Alameda. They were the expression of a considerable element of the population, but they are far from reflecting the views of a large body of well-to-do citizens, who have looked at the whole question with an eye single to what is best for Alameda to do under the circumstances. With them it is not a question of fighting the railroad or of grasping at the unattainable, but a common sense proposition of making the best terms possible with the only agency that stands prepared to give the city an adequate ferry and local train service. They own a large portion of the property of the city and are vitally interested in its growth and business prosperity and certainly ought to be good judges as to how their own interests should be served.

It is notable that the more violent the opinion expressed, the less the speakers personally have at stake. Such speakers assume that the expression of views contrary to their own marks a man as having no right to be considered. He is charged with wearing the railroad collar and being "against the people." The Tooley street idea of what constitutes the people still has a vogue, and it is exceedingly popular, which is not surprising, among the more irresponsible and thoughtless elements of the community.

But the real sentiment of Alameda has begun to make itself heard and this is a hopeful indication of an early adjustment of the franchise controversy, an adjustment that will permanently secure to Alameda a ferry and local train service superior to that enjoyed by any other municipality around the bay.

Whoever cut out the proceedings of the Republican convention in San Francisco made them dry enough. The solemn seriousness was a little more pronounced than the occasion warranted.

The people of Alameda are unanimous on one point at least. They all went to the circus.

## Hints for the Ladies.

Hand bags have come to stay. This year they are larger than ever.

The little face veil with the close mesh devoid of dots is the fashion of the moment.

Lorgnette chains and holders come in silver and gun metal as well as in gold, jewel set.

A lobster claw in silver and enamel makes a unique fur clasp. The cost is \$12.50.

A hat, ready to fly its wings and body set with rhinestones, is a new design for belt buckle.

Black made veils with a border and row of cherrie dots on the edge of that are coming in for white wear.

Most of the new bags have soft leather handles to carry them by, but some are still found with the chain.

One new belt buckle is in the form of an owl with wings spread. Jeweled eyes and enamel wings make the price about \$12.

Many of the new paid ribbons sold for about 25 cents a yard make pretty fall neck bows and stocks to be worn with full waists.

Chiffon veils in blue, brown, black and white continue to be sold and worn in spite of all that has been said against them. In the stores they say there is no wearing of their popularity.

Black-silk stocks are already coming into vogue for winter wear. Many improvements upon the plain affairs of other days are offered. Bits of silk embroidery are seen upon the turnover part.

Beaded bags, in the old-fashioned, fine, colored glass-bead work, showing scenes and landscapes, are brought over from Holland. One store displays three or four of these and they are \$3 or \$4 apiece.

Useful and convenient is a small trinket in silver—penic. It is attached by a five or six-inch silver chain to a small silver paper cutter.

Carriage bags are larger than the automobile bags and are square in shape. They also contain useful articles fitted into the sides, but leaving plenty of room for all the other things that women cram into their chateaus.

The automobile fitted bag is an oblong affair in smooth leather with a leather handle and comes in light red, green or Prussian blue. It contains a small leather purse, a card case and smelling salts bottle, each in its own little pocket.

A curious piece of furniture in the mission style is a fifteenth century clock and set of shelves for ornaments. The clock is set in the center and there is a row of small shelves flanking the corners of the tall clock on either side, these in some places carried back to the pendulum.

Rices zinn is the name of the domestic ware which so closely resembles the imported kaiser zinn. It is put to the same uses. Bread and fruit baskets, bonbon dishes, tankards, jugs and vases, as well as numerous other articles are made of it, the dull silvered surface being decorated in relief work. It is less expensive than the imported ware.

Here is something for the woman who likes fine silver glassware. It is a purse with all that is in view a solid sheet of silver. There is a silver hand chain across the top of this and with a monogram on one of the silver sides. It is a pretty trinket and costs \$12. The sheet of silver forms only a cover, however, for the real leather purse within with a separate clasp and all its compartments that belong to any well-regulated purse.

The Japanese stores are full of quaint and old things. One of the dainty treasures to be bought is the prettiest and tiniest of Japanese fans, the whole thing when closed not bigger than a teaspoon. The sticks are black, in imitation lacquer, ornamented with heads and little figures. When the fan is opened, the little moose, deer, rabbit, etc., stand out from the fan, fluttering into place again when the fan is closed. These are very inexpensive and, while fragile, are lovely in coloring and workmanship.

ONLY A BOY.  
Only a boy with his noise and fun.  
The veriest mystery under the sun,  
As brimful of mischief and wit and  
glue  
As ever human frame can be.  
And as hard to manage as—what?  
—ah me!  
Till hard to tell,  
Yet we love him well.  
Only a boy with his fearful tread,  
Who cannot be driven, but must  
be led;  
Who troubles the neighbors' dogs  
and cats,  
And tears more clothes and spoils  
more hats,  
Loses more tops and kites and  
bats,  
Than would stock a store  
For a year or more.  
Only a boy, with his wild, strange  
ways,  
With his idle hours and his busy  
days,  
With his queer remarks and his  
odd replies,  
Sometimes foolish and sometimes  
wise,  
Often brilliant for one his size,  
As a meteor hurled  
From the planet world.  
Only a boy who will be a man,  
If Nature goes on with his first  
great plan,  
If water on fire, or some fatal  
snare,  
Conspire not to rob us of this our  
help,  
Our blessing, our res-our care,  
Our torment, our joy,  
"Only a boy!"

GOT TWENTY THOUSAND VOLTS.

GLENS FALLS, N. Y., September 17.—An electric current of twenty thousand volts passed through Joseph Marconi, an employee of a power plant at Spier Falls. He fell against two wires, the point of contact being at the head and one on one hip. He was knocked unconscious and was badly burned where the current entered and left him, but otherwise shows no ill effects. Ordinarily 2000 volts will cause instant death.

### New Suits

—correct studies of new styles

In New York recently there was an exhibition of all that is new in fashionable attire. The imported gowns from Europe were displayed side by side with the copies made by American tailors. From the latest suits to arrive we will mention three, exact models of imported gowns but priced at about one-fifth of the originals.

**At \$25.00**—Walking suit showing a new Norfolk style; coat is 27 inches long; collar, cape fall over the shoulders and the collar turns over; sleeves are fullest at the elbow—one of many new ideas—and are stitched to give a panel effect; the jacket is lined with good quality of gray taffeta. The skirt has seven gores, paneled front and seams are strapped. At the price, this costume is a special value.

**At \$20.50**—Suit of original design in navy blue cheviot; the blouse front and coat 34 inches long, together with the Persian vest make a strong showing; collar and cuffs are trimmed with the new black and white drop silk braid, 2 inches wide and the effect is still further improved by the use of black silk rosettes down the front and on the skirt; jacket is lined with black taffeta. The skirt is cut with 7 gores, the seams being strapped.

**At \$32.50**—This suit closely follows the strictly-tailored model. It is made of black or navy blue cheviot with coat 38 inches long; the shoulder capes fall 13 inches and are trimmed with three rows of black silk braid, the turn-over collar being likewise trimmed; heavy silk pendants with several rope ends hang from either side in front. The skirt is 9-gored, trimmed with three rows of braid to match coat and further relieved by stitched tabs.

### New Silk Waists

Nothing will ever take the place of the rustling silk waist in the estimation of woman. Especially for evening wear will it always be pre-eminent. The new waists show as many new ideas as the new suits.

Prices are from **\$3.95 to \$8.50**

**At \$3.95**—This is a special offer in a black peau de sole silk waist—it can truly be called a five-dollar value. It has Duchess front—new adaptation of the stole turn-over collar, 24 half-tucks in front and two groups of 5 tucks in back; large silk French knot buttons.

### New Laces and Trimmings

Just as this chapter of our store news goes to press our complete new stock of beautiful laces and dress trimmings has arrived. We have always led on these particular lines and the many dainty new patterns, in connection with our right prices, will certainly maintain our reputation this season.

## ANNIE ROSS CHARGED WITH MURDER.

Walkirez' Consort Must Answer for the Brutal Killing Mrs.

Lizzie Leroy.

The sequence of the conference between Chief of Police Hodgkins and the District Attorney was the swearing out today of a complaint by the former charging Mrs. Annie Ross with murder. The charge grows out of the evidence

that convicted Victor Walkirez of the murder of Mrs. Elizabeth Leroy in Golden Gate, for which he is now serving a life term imprisonment.

She will be held as in accessory.

Mrs. Ross is now confined in the County Jail on a charge of vagrancy.

## TRIBUTE TO VALOR ON ANTIETAM.

(Continued From Page 1.)

stops were made, and Secret Service officers were on guard throughout the night. After daylight, crowds assembled at every station to greet the President. He appeared first on the rear platform of his private car at Chambersburg, Penn., shortly after 7 o'clock. He simply greeted the crowd cordially. At Hagerstown, Md., the President left his breakfast table and his breakfast guests, Governor Murphy and Senators Keane and Dryden, to go directly through of several hundred people. He said:

### BUTTON THAT SHOWS FIGHT.

"I am on my way to accept on behalf of the United States government, the monument erected to the New Jersey troops who fought at Antietam, but, in a larger sense, I go to commemorate the valor of every man who in the days that tried men's souls, proved their truth by their endeavors in the service of the national government." (Cheers.)

### LEFT A REUNITED COUNTRY.

"It is a peculiar pleasure to me today or any other day to see in the audience the men who wear the button which shows that they fought in the Grand Army of the Republic. They left to us not only a re-united country but the memory of the great deeds by which it was made united. The times are easy now compared to what they were in the days from '61 to '65, but we need to display just exactly the same qualities that made you win out under the leadership of Abraham Lincoln."

### LEAD TO SEE CHILDREN.

"I want to show how I am to see the Grand Army of the Republic and next to the Grand Army, I want to greet the future; I want to say how glad I am to have seen the children."

"Just one word in closing. As I said, we need to display the same qualities that made you win out in '61. A man was not worth anything if he was not patriotic and decent. That was first and that was not enough. No matter how patriotic he was, if he ran down his neighbor, he was not good. In addition to decency, he had to have the qualities that would make the decency effective."

### MAN MUST BE DECENT.

"It is just the same way now in civil life. A man must be decent, honest, upright, or he is not a citizen, and if he has not the qualities of honesty and decency in him, then the able he is the worse he is. I do not care how able a man is, if he has not the qualities of honesty and decency in him, he is not a decent and honest man. If he is a bribe-giver or a bribe-taker, if he is a man who defrauds in public or private life, if he is a bad husband, bad father, bad son, then he is poor stuff out of which to make a citizen. You of the Grand Army of the Republic left us what victory no other war left us."

### COMRADESHIP WITH VANQUISHED.

"You left the right of comradeship with the vanquished; you left us the right of brotherhood with men who were in '61 and nothing pleases me more than the fact that to an audience composed of Union veterans one can always make the appeal for the men who fought against you and whose sons are now as loyal as we are to the flag of our common country." (Applause.)

### MARCHED ON HONORED GROUND.

At 10 o'clock the President and Governor Murphy, accompanied by Senators Keane and Dryden, the entire party and hundreds of citizens, left Chambersburg station.

### ART OF REST.

May be Acquired and Used With Great Benefit.

Complete and restful repose of the body and mind is an art not easily gained.

Perhaps nothing brings one as much content, comfort, happiness and pleasure as those conditions of easy, restful, resourceful and well-balanced mind and body, that make work a pleasure and the daily life happy and peaceful. The nervous housewife busy with a hundred duties and harassed by children; the business man, worried with the press of daily affairs, debts, etc., cannot enjoy the peace and restful repose and healthful nervous balance unless he knows how.

There is a way. First and foremost the stomach must be consulted. That means leaving off coffee absolutely, for the temporary stimulant and the resulting depression is a sure ruin to the nervous system and the art of digestion of health and happiness rests upon stomach, nerves and mind.

Start with the stomach. That is the key to the whole affair. Stop using things that break down its power, upset its nervous energy and prevent the proper digestion of the food and the consequent manufacture of healthful blood and nerves, brain and tissues.

When you quit coffee take on Postum Food Coffee. That is like stopping the payment of interest and starting on a career where you are loaning money and receiving interest. The good results are double. You stop poisoning the system with coffee and start building up the broken-down nervous cells by the powerful elements in Postum Food Coffee. These are pure food elements, selected by experts for the purpose of supplying just the thing required by Nature to perform this rebuilding.

There are solid substantial facts and can be proven clearly to the satisfaction of anyone, by personal experience. Try the change yourself and note how the old condition of shattered nerves and worried mind changes to that feeling of restful repose of a well-balanced nervous system.

The managing physician of a hygienic sanitarium in Indiana says that for five years in his practice he has always insisted upon the patients leaving off coffee and taking Postum Food Coffee with the most positive, well-defined results and with satisfaction to the most confirmed coffee taker. The Doctor's name will be furnished by the Postum Co., Ltd., Battle Creek, Mich.

tion for the famous Dinkard Church on the battlefield of Antietam. There the columns of columns of columns escorted the President, Governor Murphy and distinguished guests to the monument.

"The monument is in the form of a Corinthian column of granite, forty feet high, surmounted by a heroic figure in bronze of an officer with upraised sword leading his men in charge. The figure is intended as a representation of Captain John F. Smith of the Thirteenth New Jersey Volunteers, who was killed at Antietam. After the assembly was called to order by James O. Smith of the New Jersey Commission, Governor Murphy, who had been pronounced by Rev. Dr. Frazer of Newark, Mr. Smith reported to Governor Murphy the final work of the commission.

### STATE ACCEPTS.

On behalf of the State of New Jersey, Governor Murphy accepted the monument in a brief address. He said: "I am glad to accept the monument on behalf of the Federal Government, which was erected in honor of the brave men who fought at Antietam."

The President spoke as follows: "Governor Murphy, and you, Veterans of New Jersey, and you, men of the Grand Army, and you, men of the New Jersey, thank you of New Jersey for the monument to the troops of New Jersey who fought at Antietam and, on behalf of the nation, I thank you for the monument today upon one of the great battlefields of the civil war. No other battle of the civil war lasting but one day, was as great a struggle of loss as that which occurred here upon the day on which Antietam was fought. More over, in its ultimate effects it had a decisive importance, for when it had ended and Lee had retreated south of the Potomac, Lincoln forthwith published the Emancipation Proclamation, the paper which decided that the civil war, besides being a war for the preservation of the Union, was a war for the emancipation of the slave, so that from that time onward the causes of Union and of Freedom of nations and individual liberty, were one and the same."

### GLORY OF NEW JERSEY.

"Men of New Jersey, I congratulate your State, because she has the right to claim her full share in the history of the nation. That moment of the day on that day you had the good fortune to be in the line of battle, and in one of the five regiments which your State sent to the battle. Four of those regiments, by the way, served in the division commanded by the gallant General, who was killed at Antietam, and who, as a major-general in the war with Spain, and who is now, as Police Commissioner of New York, rendering as signal service in civil life as he had already rendered in military life."

### RECOGNITION OF CONFEDERACY.

"If the issue of Antietam had been other than it was, it is probable that at least two great European powers would have recognized the Confederacy, so that you who fought here forty-one years ago have the profound satisfaction of feeling that you played a part in one of those crises big with the fate of all mankind. You men of the Grand Army by your victory not only rendered aid to Americans who were fighting for freedom, but you rendered aid to humanity your debtors. If the Union had been dissolved, if the great forces built with blood and sweat and tears by mighty Washington and his comrades had gone down in wreck and ruin, the result would have been an insupportable calamity, not only for our people and most of all for those who, in such event, would have seemingly triumphed—but for all mankind."

### REPUBLIC A MEMORY OF DESTRUCTION.

"The great American Republic would have become a memory of destruction, and the failure of the experiment of self-government by a great people on a great scale would have been the heart of every free republican institution. Our country, now so great and so wonderful, would have been split into little jangling rival nationlets, and the world would have been a bloody and contemptible. It was because you, the men who wear the button of the Grand Army, triumphed in this battle, that the great American Republic has been able to stand as a nation, and to hold its head high, proud in the knowledge that he belongs to a nation whose glorious past and great present will be succeeded by a great and noble future; whereas had you failed we would all of us, North and South, East and West, be known as the subjects of a tyrant at the best with contemptuous intolerance, at the worst with overbearing insolence."

### EVERYTHING HUNG ON SUCCESS.

"Moreover, every friend of liberty, every lover of self-government, every idealist who wished to see his ideal take practical shape, wherever it might be in the world, knew that he success of all which he loved was hanging upon the success of the Union armies in this great struggle. I confidently predict that when the final judgment of history records that a terrible victory was won, no other war of which we have written record was more vitally essential for the welfare of mankind than this victory. It was the victory which gave us the right of manhood for individual freedom. There have been other wars for national greatness. But there has never been another war in which the fate of the world was so large, looked at from either standpoint. We took just pride in the great deeds of the men of 1776, but we must be ever ready to stand up with the success of the Union armies in this great struggle. I confidently predict that when the final judgment of history records that a terrible victory was won, no other war of which we have written record was more vitally essential for the welfare of mankind than this victory. It was the victory which gave us the right of manhood for individual freedom. There have been other wars for national greatness. But there has never been another war in which the fate of the world was so large, looked at from either standpoint. We took just pride in the great deeds of the men of 1776, but we must be ever ready to stand up with the success of the Union armies in this great struggle.
